

EASA PART-145 · 30+ YEARS OF EXPERIENCE

HMC AVIATION TECHNIC

Your Trusted Partner in Aviation Excellence

Borescope Inspection · Aircraft & Engine Delivery · Part-145 / 147 Training · 24/7 AOG Support

hmcaviation.com · hmctechnic.com

30 years of excellence

Three decades of hands-on experience, delivering maintenance, inspection, training and consulting services to airlines, MROs and lessors worldwide.

30+
Years of experience

1000+
Aircraft serviced

500+
Borescope inspections

24/7
AOG support

Our mission: to empower the aviation industry with solutions that foster safety, innovation and operational excellence.

What we offer

Part-145 Maintenance

Aircraft and engine maintenance support under EASA Part-145.

Borescope Inspection

On-wing & off-wing, GE Mentor Visual iQ+, video reporting.

Aircraft & Engine Delivery

Technical acceptance, records review and redelivery.

Training

Part-147 type training, EASA module exams, Part-145 courses.

Consulting

Airworthiness, pre-buy inspections, C-check & borescope supervision.

Parts & Resources

Parts sourcing, AOG supply and certified engineers on demand.

Engine borescope inspection

Borescope inspection in the field

On-wing & off-wing

HPC, combustor, HPT and LPT assessed for wear, FOD and damage.

High-resolution video reports

GE Mentor Visual iQ+ with rapid, fully documented reporting.

B1-rated team

Certified engineers with EASA Form 1 documentation.

24/7 AOG, worldwide

At your hangar or on-site, wherever the aircraft is.
